

$$H = \{ (x,y) : y > 0 \}$$

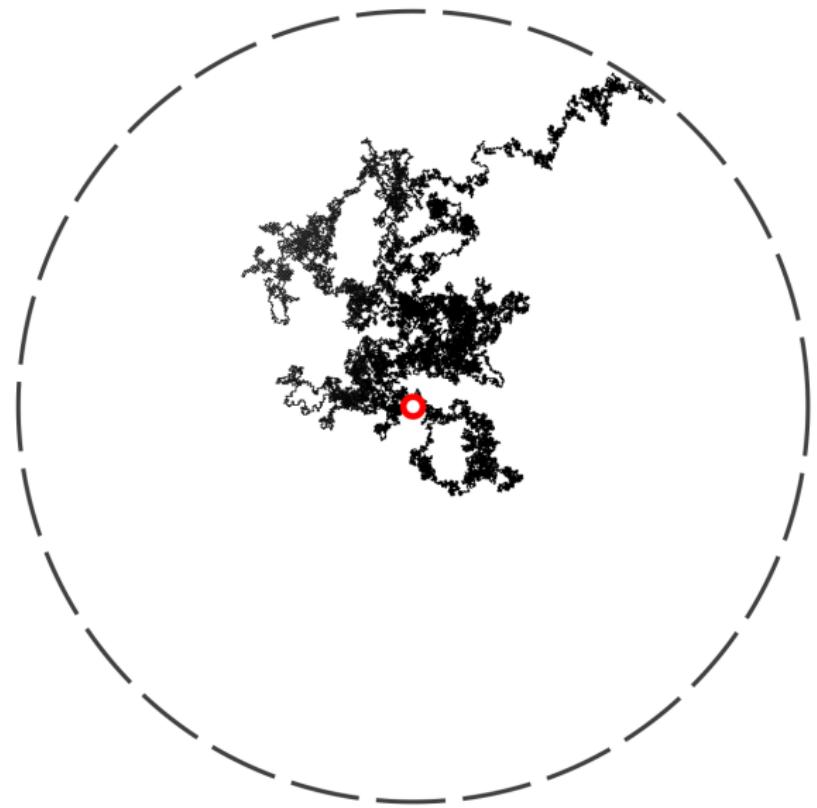

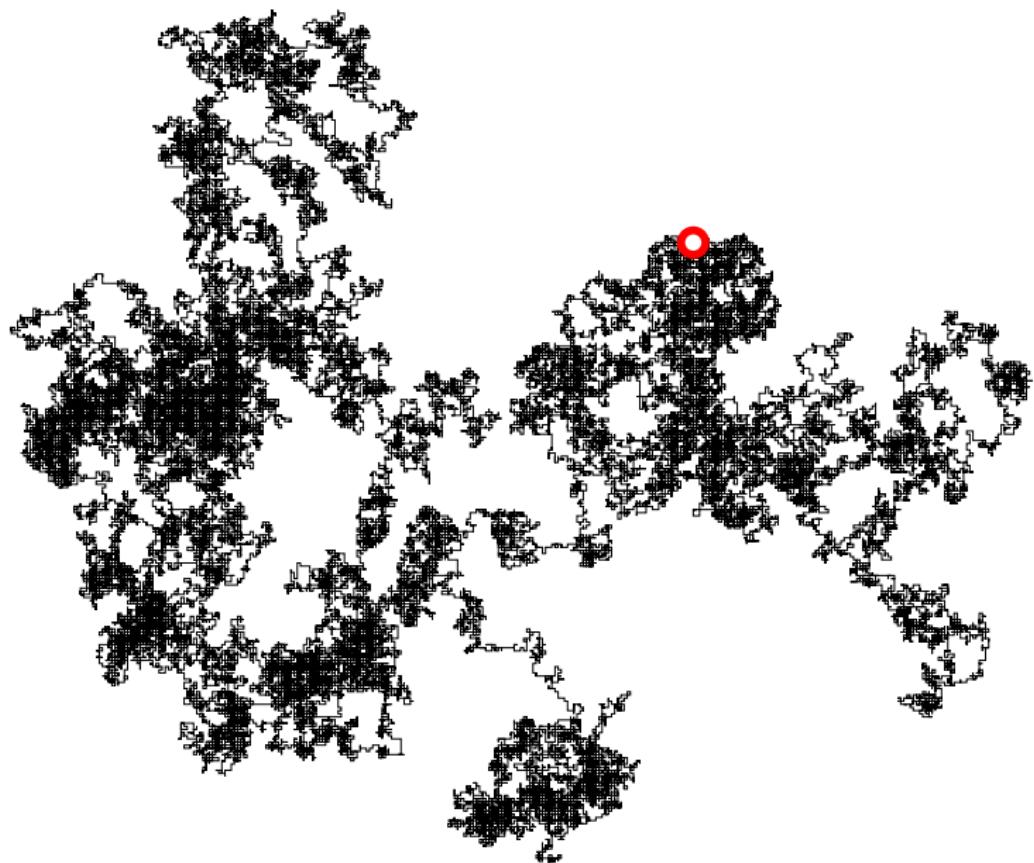

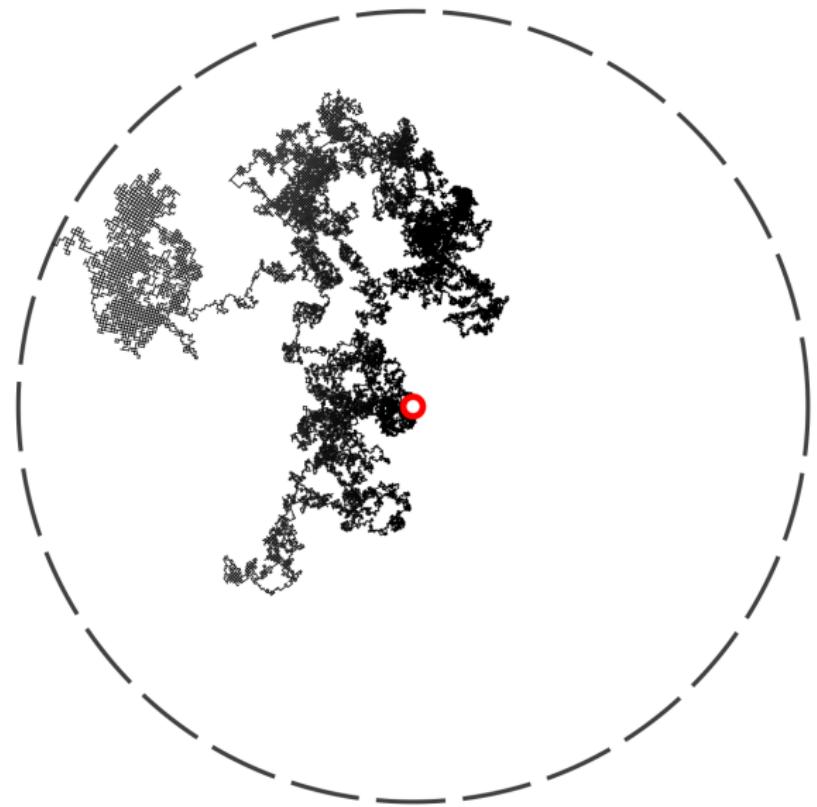

$T: \mathbb{H} \rightarrow D = \{z : |z| < 1\}$

Schramm (stochastic)-Loewner evolution SLE $_{\kappa}$

Oded Schramm (1961-2008)

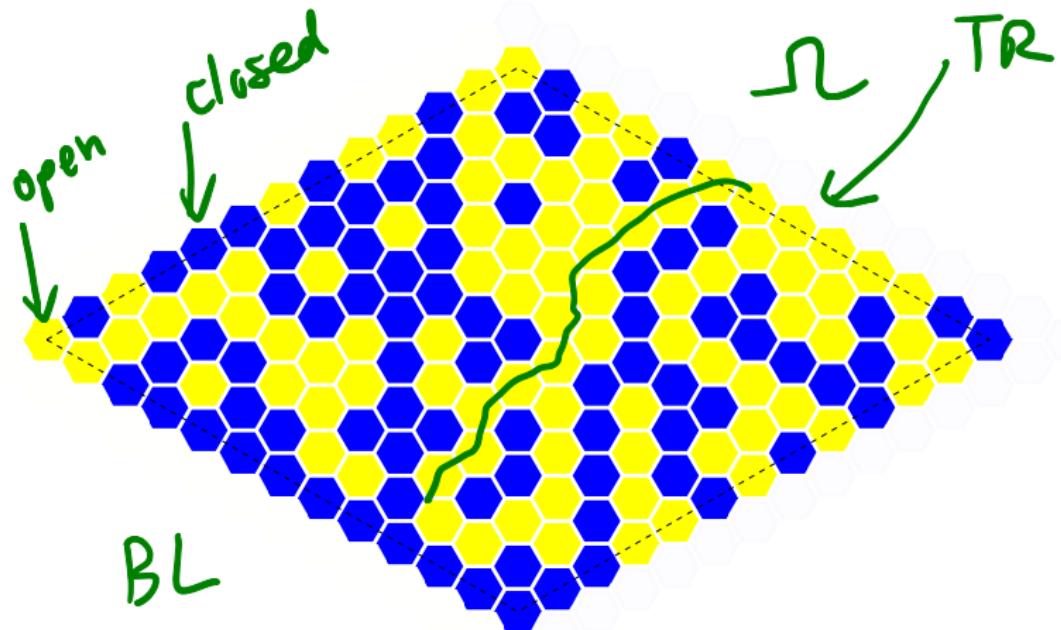

Charles Loewner (1893-1968)

Schramm (stochastic)-Loewner evolution SLE_κ

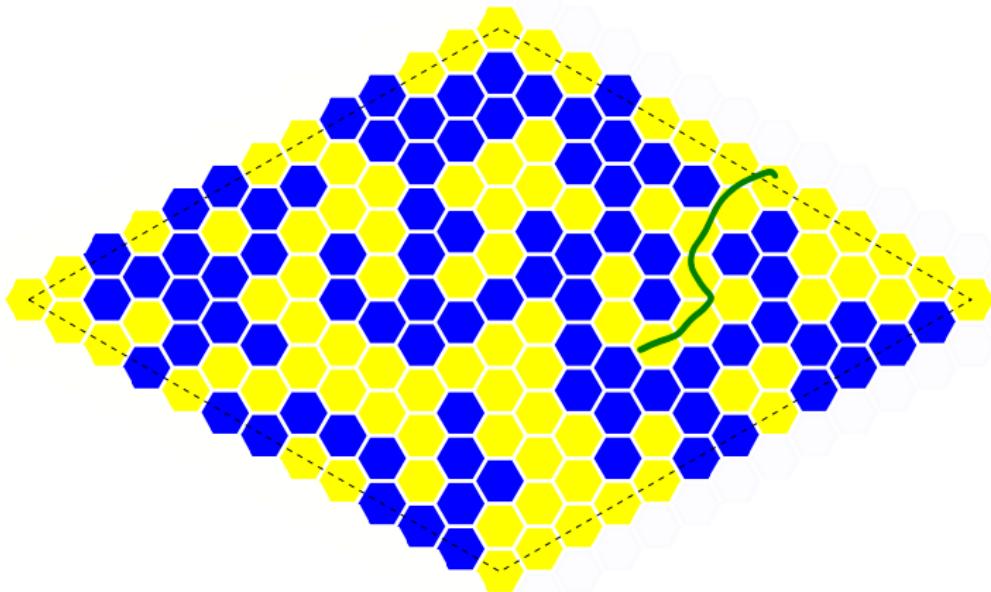

Guye Peak (North Cascade Mountains, near Seattle)

Critical percolation on hexagonal lattice

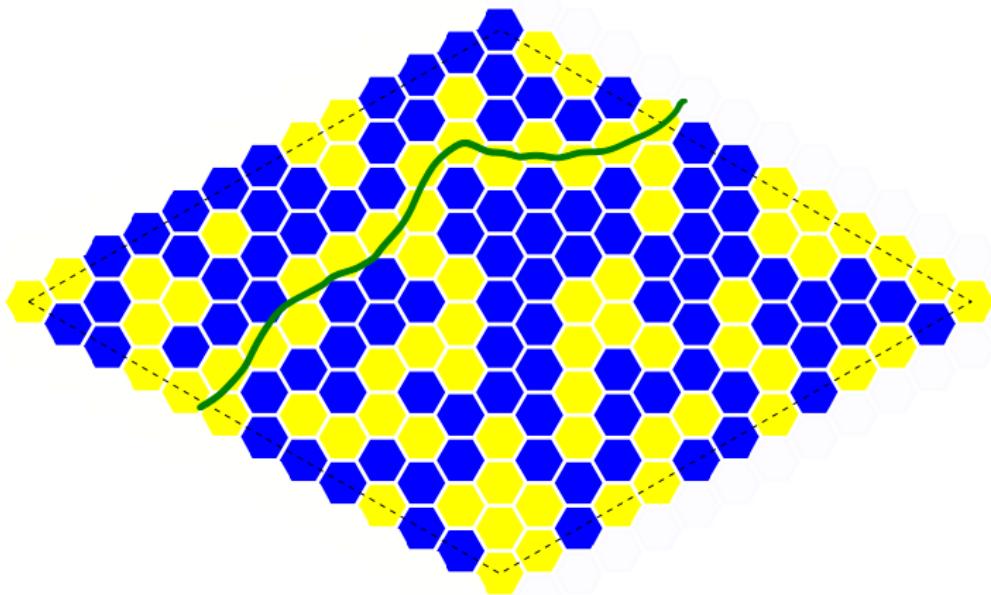

$C = \{ \exists \text{ Open path from } TR \text{ to } BL \}$

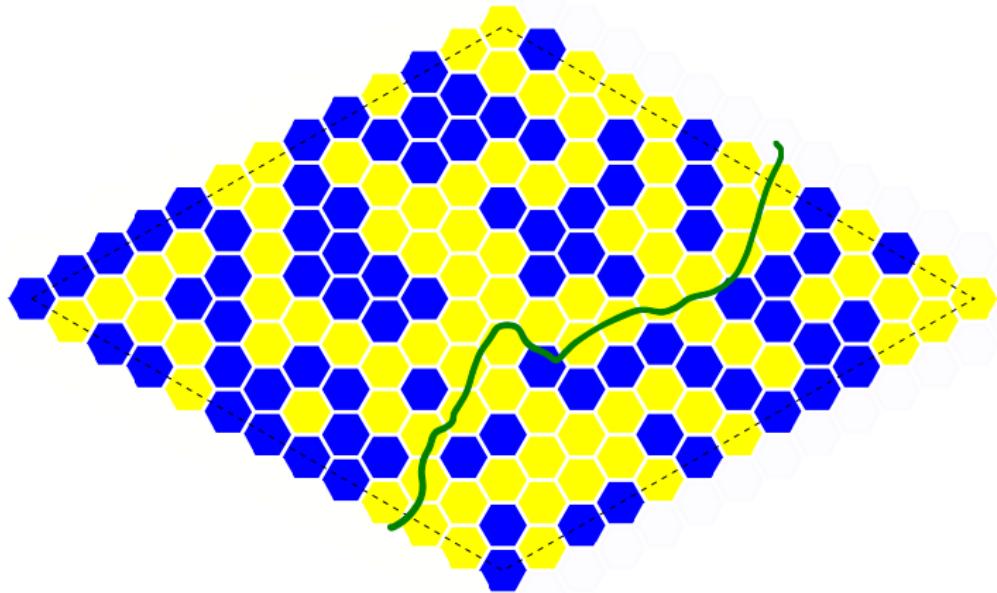

Critical percolation on hexagonal lattice
